WARNING TO PUBLIC.

A large number of returns for the year 1917 have been filed with the Inspector of Taxation for the province, but it is felt that there are a number of persons whose incomes are sufficient to render them liable to taxation who have not yet filed returns. These must be filed without any notice or remedy according to the provisions of the Income War Tax Act. This does not appear to be generally known and it seems that some persons are of the opinion that they are only required to file returns when forms are sent to them to do so. This is entirely wrong. All persons liable to taxation must get forms for themselves, either by applying for these at the nearest post office, or at the office of the Inspector of Taxation, Customs Building, Calgary.

For 1917, incomes liable to taxation were those of single persons or widows or widowers without dependent children where the amount exceeded \$1,500.00, and those of married persons, widows or widowers with dependent children where the amount exceeded \$3,000.00. The act has been amended, however, and for 1918 taxable incomes are those in excess of \$1,000.00 in the case of single persons and \$2,000.00 in the case of married persons.

Steps are being taken to trace any defaulters. The penalties provided for in the act are not yet being imposed and an opportunity is still being given to those who are liable under the act, and who have failed to comply with it to file returns. There is no doubt, however, that before long some prosecutions will be made, and it is, therefore, important that no risks be taken, and that all whom the act may affect should see that they are not incurring any of the penalties.

Where persons have any doubt in regard to any point connected with the act, they should communicate with the Inspector of Taxation, Customs Building, Calgary, for information and advice, which will be gladly given.

TRADE FACTS.

Our net debt in the Dominion before the war was three hundred and thirty-six million dollars. Now it is up beyond one billion five hundred million dollars, over four and one-half times as much as in 1914.

Interest charges on the borrowings of the country before the war amounted to twelve million dollars annually; today they are seven times as heavy. There were practically no pensions to pay four years ago; today they total over fifteen million dollars a year.

These are only parts of what we have been called upon to advance for the security of living our own lives free alike from Prussianism and Bolshevism. The Dominion will pay these charges gladly, though naturally it cannot be done by reverting to what was "normal" prior to the war, the impelling cause of it all. "Normal" then, translated into terms of today, would be bankruptcy. These are things the

Canadian Trade Commission at Ottawa are earnestly trying to bring to every man and woman, even the children in the Dominion. They touch the very heart of our home and private well-being.

Before the war we learned to be self-reliant in the Dominion. It was the greatest lesson, perhaps the greatest benefit, which the war brought us. This is the quality which we must still foster, cultivate, self-reliance in business, in agriculture, in all that which goes to make trade and to hold it. It can be done permanently in peace time as it was done for victory. It will be compulsory, because no one else will pay our debts, or develop our industries and resources.

The waggon in Aesop who prayed to Hercules, had his own strength revealed to him when he was made to put his shoulder to the wheel. We are the past praying time in Canada.

BUY GOVERNMENT BONDS.

All persons who buy War Savings or Thrift Stamps should get \$50 Dominion government bond as their objective. This may now be had for 640 and a few cents, redeemable on January 1, 1924, at \$50. Such an objective makes savings worth while.

For one thing it will be a strong incentive to continued saving. Then it is very profitable, the return being 4½ per cent compounded half-yearly, which is practically 5 per cent. The purchase of a \$50 bond will also be of material assistance to the government in meeting its heavy after-the-war responsibilities.

Now that a cemetery has been established here and since the probabilities are that it will be necessary to use it from time to time, the need for a good road into it from Main street is very evident. It would not be necessary to go to much expense at the present time. If a road were staked out and the old rut and trails crossing it filled in it would be a much needed improvement. At the present time the entrance to the cemetery is very unsatisfactory.

According to the evidence being taken by the Industrial Commission, the employment of foreign labor and the high cost of living are responsible for the unrest and labor troubles throughout the country. If these really are the causes it should not take a real live government with the ordinary amount of back bone, long to remove them. Most people thought that was the

kind of government we were going to get when they voted for union government.

According to news reports the Imperial Oil Company and seven of the old Alberta oil companies which sprung into existence in the good old days when even the school children talked of antiques and Dakota sands, are again to start out, prospecting for oil in this province. No doubt those who papered the hen house with their oil stock certificates will now be building a vault around the hen house.

Two Calgary youths attending Alberta University, took the 200 mile trip from the capital to their homes in a nine-day walk, and then there are other Calgary young people attending city schools who enter vigorous protests if they are required to walk half a dozen blocks to school. Strange, isn't it—Calgary Herald.

ITALIANS FORTIFYING

COAST OF DALMATIA.

The Italians are landing large military forces at Zara and Zelenko, on the coast of Dalmatia, according to a Reuter dispatch from Belgrade, the Serbian capital. The troops are being moved eastward and are fortifying the ridges and passes.

Seventy-three Officers of the Canadian Expeditionary Force rose to the rank of brigadier-general during the war, according to a return tabled in the house. They included 20 majors and five captains.

Results to the Credit of War Savings Campaigns

It would be a mistake to think that because a War Savings Stamp costs only 4¢ and a few cents that, therefore, the War Savings campaign does not amount to much.

In the United Kingdom about \$1,500,000,000 worth of War Savings Certificates have been sold during the last three years and the movement is being continued as a permanent peace effort.

In the United States over \$1,000,000,000 worth of War Savings and Thrift Stamps have been sold during the last 17 months. So as money raising efforts these campaigns are important.

But perhaps the chief benefit is to be seen in the creating of an entirely new class of investors in government securities. At the outbreak of war there were in Great Britain only 355,000 holders of government securities, now there are over 18,000,000 such. In the United States the number has been increased from 500,000 to possibly between 25,000,000 and 30,000,000. This change has been brought about through the National War Bond and War Savings campaigns.

At the outbreak of the war the number of people in the country who had invested in Dominion government securities numbered only a few thousand. Now they will exceed 1,000,000. The War Savings campaign is adding thousands to this number because it practically enables anyone with \$4 to buy a Dominion Government bond.

Says Germany Will

Not Sign Peace Terms

President Ebert in addressing a demonstration in Berlin, said that Germany would "never sign the peace terms."

The demonstration was held in Lustgarten and was attended by an immense crowd. President Ebert described the peace terms as "the product of the enemy's revengeful hysteria" and added: "Foreign countries will not permit the prescription of Germany. They will raise their voices with ours that this peace of enslavement, which we will never sign, shall not come to pass."

Want Canadian**Horses and Hens**

The recent formation of the Canadian National Livestock Council at Ottawa, embracing representatives of the Eastern Canada Livestock Union and the Western Canada Livestock Union, will have an important effect in promoting the livestock industry of the entire country, according to George Headley, M. L. A. of Ontario, who has just returned from the conference which resulted in the formation of the council.

While east Mr. Headley met Mr. Arkell, Dominion live stock commissioner, who has been in communication with similar commissioners from Belgium, Roumania, Serbia, Italy, Belgium and France. He said that the

live stock requires, especially, trained, small horses ranging in weight from 1,000 to 1,200 pounds, bays, and that these four countries require a total of some 500,000 such horses.

His reason why they do not want expensive or heavy horses is, first, because they are poor and cannot afford them, and, second, because light horses for transportation purposes.

Incidentally, Mr. Headley says that Commissioner Arkell told the conference that it was estimated there are 180,000,000 less poultry in Europe than before the war, and that a veritable egg famine is in sight for Britain, as France and other countries formerly depended upon for eggs, are not exporting any now.

Strike Movement Is**Evidently Spreading**

According to reports from different centres the strike movement appears to be spreading throughout Canada both east and west, as the following clippings will show:

"There is a growing belief that Toronto is drifting toward a general strike. The events of the week-end seem to indicate this, and unless there is a decided improvement in the labor situation within a few days, it is thought that this city may not itself be in a chaotic position, similar to that in Winnipeg."

"Regina is today facing the greatest strike by organized labor in her history. Prominent labor leaders stated last Saturday that the sym-

pathetic was overwhelmed in favor of a general strike in support of the carpenters. Additionally, it was stated late Saturday afternoon, would be a duplicate of Winnipeg."

"That Hamilton is threatened with a general strike similar to the Winnipeg strike, to force the eight-hour day issue, was the assertion of prominent labor leaders."

TORONTO GARRISON**HELD IN READINESS.**

It is understood that a garrison at Toronto is ready orders to proceed to Winnipeg at a moment's notice. Labor men demand that the use of troops during the present unrest be clearly defined, and they say it widespread strikes are to be avoided in Canada soldiers are not to be used as strikebreakers.
